

Step Six: Sync Your Kindle

Once you have clicked “Get library book”, there will be a dialog box that thanks you, and tells you that your eBook will download to your Kindle then next time it connects to Wifi.

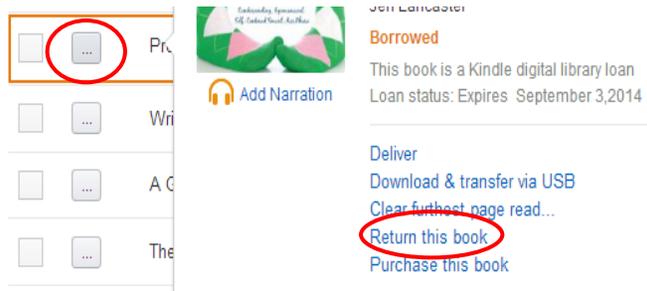

If you are having trouble getting your new eBook to appear on your Kindle’s bookshelf, make sure your Kindle is connected to Wifi, and then *Sync and Check for Items*. (As shown in the image to the right.)

Have fun reading your new book!

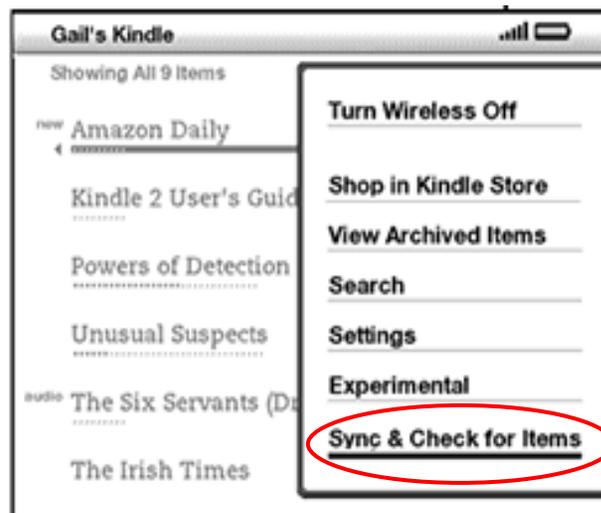

Step Seven: Return Early

- 1) Log on to Amazon.com on your computer
- 2) Go to “Manage your Content and Devices”
- 3) Find the book you wish to return early
- 4) On the left hand side, there is a small square with three dots in it—this is the menu button. Click there, and select “Return this Book.”

NOTE: You will never need to return your eBooks early—they will automatically disappear from your device when they expire.

Sync and Check for Items

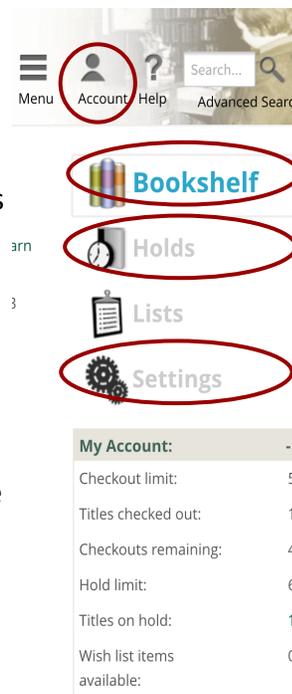

Managing Your Account

To monitor your e-account, click your Overdrive account.

“Bookshelf” contains all titles currently checked out.

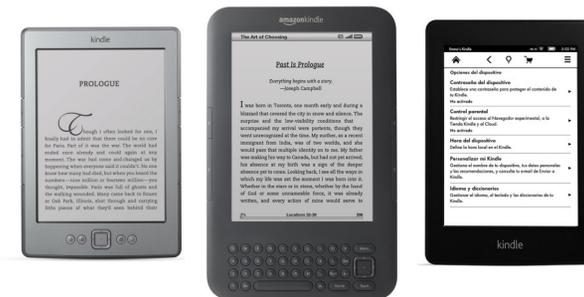

“Holds” is where you check-out items you have put on hold as they become available.

Go to “Settings” to extend checkout from 7 to 14 days.

| My Account: | |
|----------------------------|---|
| Checkout limit: | 5 |
| Titles checked out: | 1 |
| Checkouts remaining: | 4 |
| Hold limit: | 6 |
| Titles on hold: | 1 |
| Wish list items available: | 0 |

Using Overdrive to Get Library Books on your Amazon Kindle

OverDrive®

**Please note that this guide is intended for e-ink and paperwhite Kindles only. If you are using a Kindle Fire, please refer to the guide for using the Overdrive App.

Questions? Call the Library!

Warminster Township Library

267-317-1333

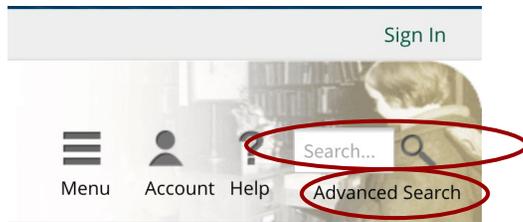

Step One: Access Overdrive

On your computer, tablet, or smartphone, go to **Overdrive** located at the bottom of www.buckslib.org in “Downloads and Streaming”.

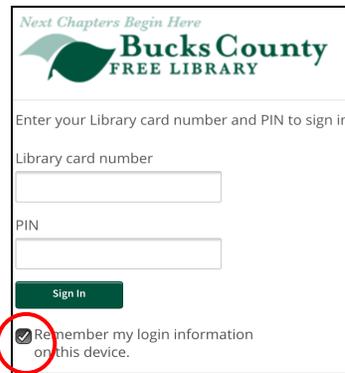

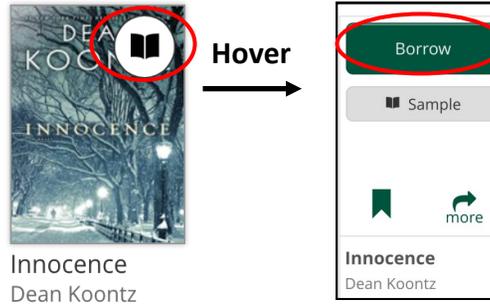

Step Two: Search Catalog

Once in Overdrive, you can begin searching for materials. In the upper right hand corner, you will find a magnifying glass. You have two options—a simple search and an advanced search. The simple search allows you to search using an authors name, part of a title, or a keyword. The Advanced search allows you to use multiple search criteria, including author’s name, title, genre, format, and even availability.

Step Three: Borrow a Title

Once you have found your book, hover over the cover. The click “Borrow”.
(NOTE: Black icon means available-circled).

Next, enter your Library card number and PIN, and then tap “Sign In.” You can also choose to remember your password on your device.

NOTE: If the icon is grey in color, the title is currently checked-out. To place a hold on the item, the process is the same. Instead of clicking “Borrow,” click “Place a Hold.”

Step Four: Select Format

Click “Download”. If you have an e-ink or paperwhite Kindle you **MUST** choose the Kindle Format. Then click “Confirm and Download”.

This will route you automatically to Amazon.com!

NOTE: You may have to log in to Amazon. Make sure you know your Amazon username (typically your email) and your password!

Step Five: Get Library Book

When you are routed to Amazon, you’ll be taken to a page that looks *just like* what it would look like if you were *purchasing* the book. The only difference is that instead of having a **Buy Now!** button, it has a **Get Library book** button.

If you have multiple Kindles, make sure that it is set to deliver the eBook to the correct Kindle by selecting your desired Kindle from the drop down menu under *Deliver to*.
