

RESIDENTIAL TREATMENT

Residential treatment is provided for persons with serious substance use disorders (SUD) and includes individual and group counseling on a daily basis. Family education and counseling may be provided as needed.

This treatment is typically offered in a non-hospital residential setting. The length of treatment varies with the severity of the (SUD) and the structure of the program. Ongoing treatment typically occurs on an outpatient basis after completion of the residential program. Listed are several of the residential programs utilized for eligible individuals.

The Montgomery County Drug and Alcohol Program began with the passage of the Pennsylvania Drug and Alcohol Abuse Control Act of 1972. The goals of the program are: to prevent people from abusing drugs and alcohol; to intervene in a timely, helpful way with persons already experimenting with drugs and alcohol; and to provide needed treatment services to people dependent on drugs and/or alcohol. This brochure lists the community agencies in Montgomery County that have been approved by the Pennsylvania Department of Drug and Alcohol. All services are provided regardless of race, religious creed, ancestry, national origin, age, sex, or sexual preference.

PREVENTION

Prevention services offer educational programs that strive to increase self-understanding improve interpersonal skills and offer methods for coping with stress. Programs are designed to be of value to the total population and are given in cooperation with schools, media, family, community agencies, and groups.
